## Objective

Develop a professional, responsive travel agency website with multiple pages and modern UI/UX.

### Key requirements

- Minimum 5 pages: Home, About, Destinations, Packages, Contact.
- Fully responsive on mobile, tablet, desktop.
- Navigation bar and footer on all pages.
- Images/banners and proper content structure.
- Contact form with validation.

### Implemented features

- Destinations search + filters (category + budget).
- Packages listing with pricing, search, sorting, and quick enquiry.
- Testimonials + call-to-action buttons.
- Responsive mobile navbar menu.

- Validated contact form (front-end only).

## Work log (April 27–29, 2026)

High-level timeline of work done during the project window.

| Date | Tasks | Output |
|---|---|---|
| April 27, 2026 | Project setup, page structure, navigation and footer, homepage layout. | Base UI + responsive layout |
| April 28, 2026 | Destinations + packages sections, search/filter/sort logic, UI polish. | Interactive Destinations & Packages |
| April 29, 2026 | Contact form validation, image integration, credits + report, final checks. | Submission-ready website |

Note: This is a front-end project (no backend). For real submissions, connect the enquiry form to Netlify Forms or a backend.
